

## PURA 30 Water Bath

PURA water baths stand for innovative, simple, and safe working in the laboratory. All models (except PURA 4) come with an integrated drain screw for quick and clean draining of the baths. PURA water baths are flexible and can be easily transported through ergonomic side recessed grips. Non-slip rubber feet ensure a firm footing and more safety in the laboratory.

## Your advantages

- Easy operation
- Bright display
- · Mains switch is protected against spray water
- Integrated protection against running dry
- Integrated drain screw (except PURA 4)
- No distracting elements in the bath
- Platform included as standard
- Integrated timer
- Non-slip rubber feet
- Ergonomic recessed grips

## All Benefits

### Less is more.

Thanks to their design, PURA water baths require a minimum amount of water so that even small sample containers stand safely.

## Start. Stopp. Timer.

PURA water baths offer an internal timer function. After expiration of the set time, a signal sounds and the device either continues operation or switches off.

## Easy cleaning.

PURA does not incorporate any interfering functional elements. The smooth surfaces can be cleaned quickly and without residue.

### Lightweight. PURA water baths impress with their low weight and can be flexibly used.

Tilting - no, thank you.

# handles simplify the transport.

The PURA water bath design is tiltproof. Non-

slip rubber feet prevent slipping and carrying

Ease of use. The controls on the front side are easy to reach and use.

## Easy handling.

A frontally integrated drain screw allows clean, safe, and effortless emptying of the baths. (not PURA 4)

## 100% Checked.

100% testing. 100% quality. Each JULABO Circulator undergoes thorough quality testing before leaving the factory.

Highest standards of quality for a long product
